KEY ACHIEVEMENTS

Enhanced Platform Performance
Reduced server response time by 30% through performance optimization across both frontend and backend and including efficient code practices.

Security Optimization & Vulnerability Reduction
Enhanced application security by proactively identifying vulnerabilities and implementing secure API practices, reducing exposure to common web threats.

SUMMARY

Full stack developer with hands-on experience building high-performance web applications. Proficient in React.js, Node.js, and GraphQL, with a strong focus on creating innovative, user-friendly solutions. Skilled in both frontend and backend development, ensuring end-to-end ownership of projects. Dedicated to aligning technology with business objectives and collaborating across teams to deliver seamless user experiences.

EXPERIENCE

Full Stack Software Engineer

Easpire Technolabs Pvt Ltd   📅 06/2024 - Present   📍 Ahmedabad, Gujarat

- Architecting and developing a full-featured job portal inspired by Naukri.com, driving end-to-end product implementation from backend architecture to frontend user experience.
- Working with **Node.js**, **React**, **GraphQL**, **JavaScript**, **TypeScript** and **PostgreSQL** to build a scalable and efficient web application.
- Optimizing application performance, security, and database queries for enhanced efficiency. Mentoring two interns, guiding them in best coding practices, debugging, and project contributions.
- Collaborating with cross-functional teams to enhance user experience and integrate new features.

Full Stack Developer intern

Ace Infoway Pvt Ltd   📅 01/2024 - 05/2024   📍 Ahmedabad, Gujarat

- Actively contributed to building a **CRM application**, playing a key role in developing core modules and features for client and team management, including dynamic project templates and timeline tracking.
- Managed task distribution, ensured code integration from fellow interns, and maintained repository consistency using Git/GitHub.
- Worked on both frontend and backend using **React.js**, **Nest.js**, **MySQL**, **Material-UI**, and **Bootstrap**, focusing on clean architecture and responsive UI.
- Strengthened problem-solving, communication, and leadership skills through regular collaboration with mentors and fellow developers.

EDUCATION

B.Tech in Computer Engineering

Indus University   📅 06/2020 - 04/2024   📍 Ahmedabad, Gujarat   GPA **9.64** / 10
